EDUCATION

LAUTECH,

Bachelor of Technology in Computer Science

Feb 2020 – Nov 2025 | Ogbomoso, Nigeria

BuggyBillions, Frontend web development

Ogbomoso, Nigeria

PROFESSIONAL EXPERIENCE

Kathalysth limited, Software engineer

Jan 2026 – Sep 2026 | Remote

- Built and optimized responsive web applications with **Next.js, React, TypeScript, Prisma, MongoDB, and Supabase**, improving frontend performance and data access.
- Contributed to migrating legacy applications into a **Turbo monorepo**, improving build workflows and cross-project code reuse; configured Docker environments for consistent development.
- Implemented **Jest unit and integration tests** for critical flows including authentication and multi-tenant routing, reducing production regressions.

Eport Global Logistics, Frontend developer (Contract)

Dec 2023 – Apr 2025

- Led frontend development for admin and customer logistics dashboards, integrating APIs for real-time shipment tracking and data updates.
- Improved navigation and usability through responsive UI design, contributing to a **25% reduction in support queries**.

Sunmence Solution, Frontend Developer

Sep 2022 – Mar 2024 | Ogbomoso, Nigeria

- Developed responsive interfaces with **React.js, Tailwind CSS, and Bootstrap**, improving usability and frontend performance across multiple projects.
- Integrated **REST APIs** and collaborated with backend developers to deliver accessible, reliable web applications.

PROJECTS

Watchables 🍿, React.js, Appwrite, RESTful API

- Built a movie discovery app using React.js and TMDb API, with personalized watchlists, recommendations, authentication, and dynamic trending content.
- Used Appwrite for authentication and search analytics, while optimizing API calls to improve data retrieval and load performance.

Hiresight , *React Router v7, Typescript, TailwindCSS, Puter*

- Built an AI-powered resume scanner that analyzes resumes and provides actionable feedback.
- Integrated Puter AI to help users improve resume content and increase job-search effectiveness.

Mentatry , *Next.js 16, TypeScript, PostgreSQL, Redis, Server-Sent Events*

- Built an AI-powered quiz platform supporting multiple AI models for quiz generation, with Zod-validated structured output, guest access, and live multiplayer games for up to 200 participants.
- Engineered real-time synchronization with Server-Sent Events, Redis caching, React Suspense streaming, and server-side gamification to improve reliability and performance under concurrent traffic.

klick , *Next.js 16, TypeScript, PostgreSQL, Upstash Redis*

- Built a URL shortener with real-time click analytics, Edge Middleware geolocation/device tracking, and Redis-backed slug resolution.
- Added URL safety checks and rate limiting to protect against malicious links and abusive traffic

TECHNICALSKILLS

Languages

JavaScript, TypeScript, HTML, CSS

Backend & Data

PostgreSQL, MongoDB, Prisma, Supabase, Appwrite, Redis

Frameworks & Libraries

Next.js, React.js, React Router, Tailwind CSS, Bootstrap, Shadcn, TanStack Query, SWR, GSAP, Jest, Playwright, Zod

Tools

Git, Docker, Sentry, Vercel, Netlify, VS Code
